

A concrete experience of Steiner-Waldorf pedagogy practice.

Why this training?

To give yourself the time to make a toy inspired by Waldorf pedagogy, and thus letting yourself be touched by this magical invisible world expressed through the toy.

- Either make a toy of your choice from those proposed by the A(r)telier
- Or be guided in the creation of a game of your ideas or needs.

In the wide universe that surrounds these creations, the atelier offers 3 areas of experimentation:

1. The world of dolls and cuddly toys-

What a child chooses in their environment as the image of the human being is not trivial.

The Dutch doll brand series « Zonnekind » follows the developmental stages of a child.

2. The world of cooperative games-

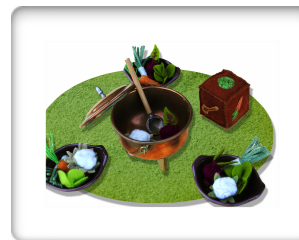

The games designed in the atelier all take care to depersonalize the competition between players and integrate a value of sharing and a pleasure of playing together.

Snail Course

Cheese hunt

Soup game

3. The world of table puppet shows-

This magical tool specific to Waldorf kindergarten pedagogy allows you to animate seasonal or holiday-related stories.

Proposed materials: quilted wool, felt, or wood.

And a special subject for Waldorf teachers:

The 4 calculation elves in the form of hand puppets: Minus, Addi, Divi and Multi.

Or another hand puppet?

Who am I?

My professional life always surrounded children: (kindergarten teacher, craft teacher, Steiner-Waldorf educational advisor).

Since 2000, I am co-responsible for a educational farm in Central France. I welcome you there with A(r)telier Cocon. This atelier functions in the form of a 1901 association whose profits support Waldorf pedagogy.

After receiving so much of this pedagogy, I am often asked to share the contents of this overflowing Around craft, my contributions start above all from your questions and sharing in order to accompany you towards your own source of creativity.

Practical information:

We are committed to making these training courses accessible to « all »: child carers, kindergarten teachers, teachers, parents... « everyone », because courses can be given in French, English, German, or Dutch. Firstly, you must have a minimum of 3 consecutive days per theme: 2 hours of classes per day then making independently to get a finished toy (doll, board game or other).

Rates :

Money is the equivalent of an energy exchange and we want it to be the fairest for everyone.

It includes :

- Annual contribution to the association, including insurance: 10 euros
- Cost of raw materials: for kits available on our website: <https://arteliercocon-fr.simdif.com>
- The courses: we estimate it at 60 euros for the 3 days. There is also the option to instead give 3 hours a day of your time to projects in progress in the workshop. In this case, you must be a member of WWOOF (Willing Workers On Organic Farms), or workaway.

Where to stay?

Several types of accommodation exist at La Caille: camping, chalet/mobile home, mezzanine in the atelier, Gîte (on weekdays if available): see rates on our website www.lacaille.org or contact us: 0033 7 87 95 89 18

Except for emergency or last minute reservation, please favor email: connylacaille@gmail.com

The place is called La Caille, 03210 Saint-Menoux.

Website under construction: www.lacaille.org
